Verdict sets justice system under microscope

JULIAN BELTRAMI  
CHIEF ANTHONY

O.J. Simpson resumes his life as a free man today after a not guilty verdict in his murder case left this city to cope with the bitterness, second guess and uncertainty that followed a trial that divided America.

Simpson, 42, of Fane football hero, actor and pitchman, was acquitted of double murder charges by a 12 person jury.

Outside the downtown courtroom, hundreds of Americans, mostly African-American, very jubilant as radios turned to the oral broadcast the jury's verdict of "not guilty" in the killing of the brawling deaths of his ex-wife Nicole Brown Simpson and her friend Ron Goldman.

Inside, a visibly drained Simpson stood at his seat, turned his head right and mouthed the words "thank you" as the verdict was read while Gold-

**What O.J. said**

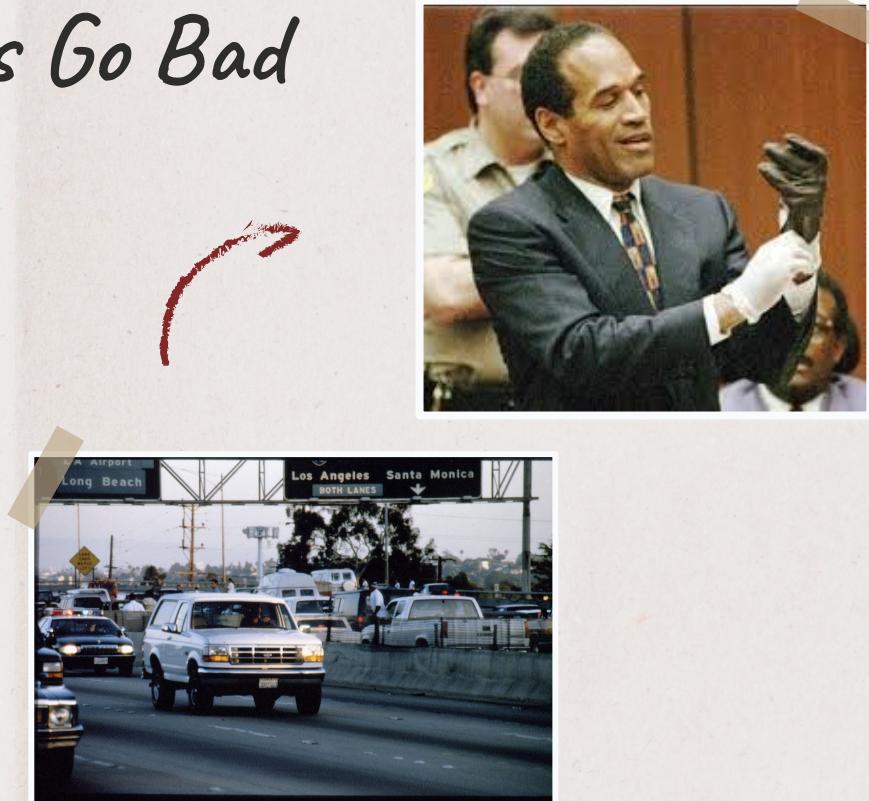

I'm relieved that this part of the incredible nightmare that occurred on June 13, 1994, is over. My first concern is to keep my young children, who will be raised the way that Nicole and I had always wanted. My second obligation is to my friends and to those friends who never wavered in their support.

For the moment, I have settled a bit. I will pursue as my primary goal in life the killer or killers who snuffed out the lives of Nicole and Goldman. They are out there somewhere. Whatever it takes to identify

# How Did the Forensics Go Bad

The forensics went bad when the prosecutors completely ignored what was in O.J. Simpson's trunk. Police found a gun, Simpson's passport, a fake beard, and thousands of dollars in cash and checks. He was obviously planning on leaving the country to try and avoid authorities. The way he acted about the entire thing was also suspicious. There is also a theory that Simpson stopped taking his arthritis medicine to swell his hand. The glove wouldn't fit his hand anymore because the swelling makes it bigger.

# My Opinion

In my opinion, almost of the evidence leads to O.J. doing the murders. He only got away with this because he was famous, and assembled what is essentially “The Avengers” of defense teams.

The prosecution refusing to bring up very important evidence also its to blame why O.J. got away with it. The defense was able to take advantage of problems in society to win over a vast majority of people.
